

Anti Vibration Glove

Art no: C-3000

Art no:	C-3000
Size:	9-11
Materials:	Cow hide leather, Spandex, EVA
Packaging:	12/60
Standard:	EN420, EN388:2016
Category:	II

EN420 EN388:2016
 CATEGORY II
 2132X

Properties

Light anti vibration glove with shock absorbing gel in the inner hand. The gel absorbs vibrations so that you can work better and longer with heavy machinery without feeling your hands getting tired. The glove is made of durable cow leather in the inner hand and has reinforcements across the fingers on the upper hand which also works as extra abrasion protection. Unlined. Upper hand in Spandex and elastic fabrics for a fitted feel. Elastics around the wrist to secure fit.

Material information

The glove is sewn in goatskin in the inner hand and over the fingers. The back is in Spandex. Shock absorption pads in EVA (ethylene-vinyl acetate) foam.

Technical facts: Intermediate design (category II)

For areas of specific risks, i.e. mechanical risks. These products will have been CE type tested against European EN388:2016 test methods and certified by a notified body. The testing is done for abrasion resistance, cut resistance, tear resistance, puncture resistance, extended cut resistance and impact protection. The maximum score for each level are; abrasion 4, cut resistance 5, tear resistance 4, puncture resistance 4, extended cut resistance F (X if not applicable) and impact protection (optional) P if approved.

Evaluate the importance of each of the properties and how it applies to you as a user.
