

PRODUCT DATA SHEET

Needle Armour

Art no: HGS-9132

HySafety

Art no:	HGS-9132
Size:	7-12
Materials:	Goatskin, Metal mesh, Spandex, Neoprene, Terrycloth
Packaging:	12/120
Standard:	EN420, EN388:2016, ASTM F2878-10
Category:	II

CATEGORY: II

EN420

EN388:2016

2X23F

ASTM F2878-10
HAND: 11.43N
FINGRAR: 6.59N

Properties

Special glove developed for body search and similar situations where tactile sensitivity is important, but the risk for needle injuries are high. Robust but still flexible tactical glove in very durable goatskin leather. Puncture and needle resistant layer protecting the full palm and fingers against needles and pointy objects. Leather reinforcements on fingertips and thumb grip for added durability. Elastic spandex on the upper hand with elastic neoprene over the knuckles for added comfort. Soft Terrycloth on the upper thumb for wiping goggles or the forehead. Broad, elastic neoprene cuff, adjustable with a Velcro lock for a safe and snug fit.

Material information

Special Glove made of durable goatskin with extra leather reinforcements on the inside of the index finger and thumb, as well as fingertips and grips. There is a non-slip pad throughout the inner hand.

Technical facts: Intermediate design (category II)

For areas of specific risks, i.e. mechanical risks. These products will have been CE type tested against European EN388:2016 test methods and certified by a notified body. The testing is done for abrasion resistance, cut resistance, tear resistance, puncture resistance, extended cut resistance and impact protection. The maximum score for each level are; abrasion 4, cut resistance 5, tear resistance 4, puncture resistance 4, extended cut resistance F (X if not applicable) and impact protection (optional) P if approved. Evaluate the importance of each of the properties and how it applies to you as a user.

How to read the pictogram:

EN388:2016

a b c d e f

abrasion resistance
cut resistance
tear resistance
puncture resistance
extended cut resistance
impact protection (optional)
